Non-Small Cell Lung Cancer (NSCLC)

A Study of the Efficacy and Safety of Alectinib in Participants With Anaplastic Lymphoma Kinase (ALK)-Rearranged Non-Small Cell Lung Cancer

| Trial Status | Trial Runs In | Trial Identifier |
|--------------|---------------|----------------------------|
| Completed | 1 Countries | NCT03155009 2016-003924-22 |
| | | ML39349 |

The source of the below information is the publicly available website ClinicalTrials.gov. It has been summarised and edited into simpler language.

Trial Summary:

This study will evaluate the efficacy and safety of alectinib, in selected participants, with anaplastic lymphoma kinase-rearranged (ALK-rearranged) non-small cell lung cancer (NSCLC), after disease progression on prior treatment strategy with crizotinib, as only ALK inhibitor, and eventually chemotherapy treatment(s).
