Official Title:

An Extension Study to Evaluate the Long-term Safety and Efficacy of Afimkibart (RO7790121) in Patients With Rheumatoid Arthritis Who Participated in Previous Afimkibart Clinical Trials

Trial Summary:

The study will evaluate the long-term safety and efficacy of Afimkibart (also known as RO7790121) in participants with moderate to severe Rheumatoid Arthritis (RA) who have an inadequate response or intolerance to tumor necrosis factor (TNF) and/or Janus kinase (JAK) inhibitors, and who were previously treated with Afimkibart.
